
Hiperinflación alemana

Silvia Martínez y Henar Escribano

The background of the slide is a light beige color with a subtle, repeating pattern of small, stylized dollar bills and coins. The bills are depicted in various orientations, some appearing to be falling or floating. The coins are small circles, also scattered across the background. The overall aesthetic is clean and modern, with a focus on the theme of money.

01

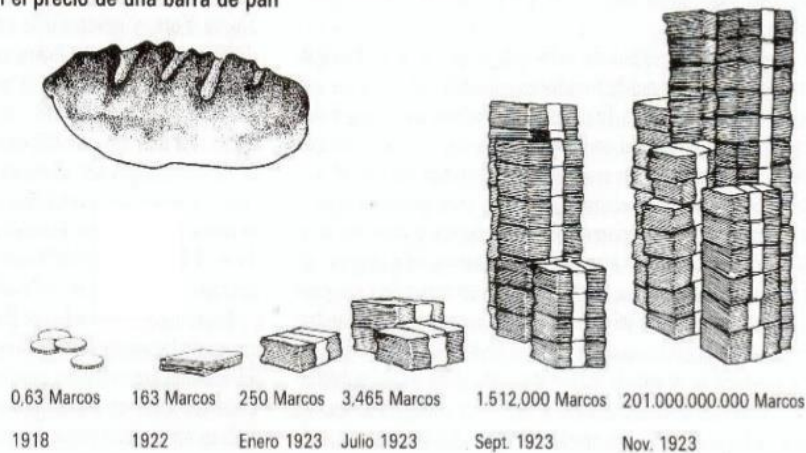

¿Qué es la Hiperinflación?

Hiperinflación

Entreguerras, 1919-1939

LA HIPERINFLACIÓN ALEMANA DE 1923

La inflación alemana a principios de los años veinte reflejada en el precio de una barra de pan

The background is a light beige color with a subtle paper-like texture. Scattered throughout are several hand-drawn illustrations of banknotes and coins in a brownish-gold color. The banknotes are of various denominations and are shown in different orientations, some appearing to be floating or falling. The coins are simple circles with some internal detail.

02

Contexto histórico

1921 - 1923

Tratado de Versalles

- ① Alemania responsable
- ② Pago por reparaciones
- ③ Cesión de territorios
- ④ Reducción del ejército
- ⑤ Desmilitarización de Renania

Río Rin: recursos naturales

Ocupación francesa del Ruhr

1 dólar equivalía a 1 millón de marcos

Pérdida de valor del marco

1923 fueron necesarios 5,5 mill.
kg de papel moneda

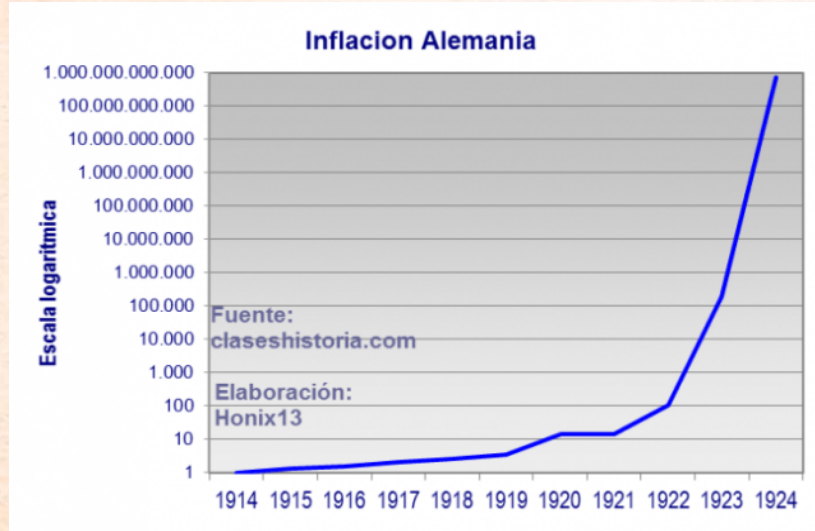

The background is a light beige color with a subtle paper-like texture. Scattered throughout are several hand-drawn illustrations of banknotes and coins in a brownish-gold color. The banknotes are shown in various orientations, some partially folded or crumpled, with some featuring a portrait and the word 'TEN'. The coins are simple circles with a small dot in the center.
